

Nally MegaBin®

Reusable Bulk Handling Containers

Proven. Reliable. Built for Performance.

The Viscount Difference

Locally manufactured in Australia, **Nally MegaBin®** is a proven bulk handling solution engineered for high-volume supply chains that demand strength, consistency and hygiene.

Its rigid, fixed-wall design delivers reliable performance across repeated use cycles, supporting efficient storage, transport and handling across fresh produce, food manufacturing and industrial applications.

Designed for long-term reuse and full recyclability, MegaBin supports circular material flows while maintaining operational efficiency in demanding environments.

High-strength one-piece construction for consistent performance

Stable stacking design maximising storage and transport efficiency

Smooth, non-porous surfaces supporting hygiene and easy cleaning

Rounded internal corners reducing product damage in handling

Ventilated or solid options to suit different product types

Pallet-compatible footprint for seamless integration

Durable and UV stabilised for indoor and outdoor use

Reusable and fully recyclable at end of life

Achieve Operational Efficiency

For businesses using bulk handling bins, MegaBin® delivers:

- Improved handling efficiency through stable stacking and transport
- Reduced product damage through smoother internal design
- Lower contamination risk with hygienic, non-porous materials
- Consistent performance across high-volume operations
- Bins are not suitable for the storage and movement of liquids.

Designed for Real-World Supply Chains

- Fixed-wall design for structural integrity
- Reliable performance across repeated use cycles
- Configurable options for ventilation or containment
- Suitable for food-grade applications

The Range

Specifications	Nally Megabin® 440	Nally Megabin® 580	Nally Megabin® 730	Nally Megabin® 780	Nally Megabin® Lid
Standard footprint	1165mm x 1165mm x 440mm	1165mm x 1165mm x 580mm	1165mm x 1165mm x 730mm	1165mm x 1165mm x 780mm	1180mm x 1180mm x 35mm
Internal dimensions	1082mm x 1082mm x 310mm	1082mm x 1082mm x 450mm	1082mm x 1082mm x 600mm	1082mm x 1082mm x 650mm	n/a
Height options	440mm	580mm	730mm	780mm	35mm
Capacity	353L	528L	~715L	~755L	n/a
Weight	27.5kg	30.5kg	~44kg	~46kg	10kg
Vented/Solid options	Vented Only	Vented Only	Vented Only	Vented or Solid	n/a

Construction & Materials

- High Density Polyethylene (HDPE) construction
- UV stabilised for outdoor durability
- Food grade approved
- Double wall corner and centre posts for strength
- Smooth internal surfaces for product protection

Key Features

- Interlocking stacking design for stability
- Multiple vents for airflow (vented models)
- Non-absorbent surfaces for hygiene
- Forklift and pallet jack compatible
- Two hand holds for safe handling

Operational Performance

- High load stacking capability across storage conditions
- Designed for consistent performance across repeated use cycles
- Suitable for cold storage and ambient environments

Applications

MegaBin is widely used across:

- Fresh produce and agriculture
- Meat and poultry processing
- Food manufacturing
- Industrial and bulk materials

Our Impact

MegaBin supports more efficient supply chains by enabling:

- Reuse-based material handling systems
- Reduced product damage and waste
- Improved hygiene performance in food environments
- Circular end-of-life recycling

Customisation Options

- Vented or solid wall configurations
- Lid options available
- Barcoding and sequential numbering
- Custom branding (hot foil stamping)
- Extended height rackable feet
